IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re Application of

Tsuneaki FURUKAWA et al.

Serial No.: 10/764,482

Filed: January 27, 2004

For: MULTIFUNCTIONAL WATCH

INFORMATION DISCLOSURE STATEMENT

Assistant Commissioner of Patents
Washington, DC 20231

Sir:

In accordance with MPEP 609 and 37 C.F.R. §§ 1.56, 1.97 and 1.98, Applicants bring the references listed on the attached PTO-1449-Form to the Examiner's attention and request that they be considered and made of record in this application. Copies of the non-U.S. patents are attached. This Information Disclosure Statement is being filed within three (3) months of the filing date of this application. Thus, ***no fee is believed to be due for this Information Disclosure Statement.*** However, the Commissioner is authorized to charge any fees associated with this communication or credit any overpayment to Deposit Account No. 50-1836. A duplicate copy of this Statement is enclosed for that purpose.

Since this application was filed after June 30, 2003, the U.S. Patent and Trademark Office waives the requirement under 37 C.F.R. 1.98 (a) (2) (i) for submitting a copy of each cited U.S. Patent and each U.S. patent application publication.

International Patent Publication No. WO99/54792 discloses a time measuring device, which is small and is driven with small power consumption. The time measuring device is comprising a first motor for displaying the real time, a second motor for displaying a

chronograph, a power generator for converting kinetic energy to electric energy and generating electric power so as to drive the first and second motors, and a zero-resetting mechanism for mechanically zero-resetting the chronograph. International Patent Publication No. WO99/54792 is believed to be equivalent of United States Patent Publication US6,466,518.

Japanese Laid Open Patent Publication No. 61-83991 appears to disclose an electronic timepiece with chronograph functions. Chronograph hands are not located in the center of watch where current time hands exist. Also, the chronograph hands are located in layers where batteries and coils do not exist.

Prompt examination on the merits is respectfully requested.

Respectfully submitted,

Yoshio Miyagawa
